Coaxial microscope KERN OZC-5

Plug in for power supply

PROFESSIONAL LINE

The coaxial with parallel optics for excellent contrast and depth of field

Features

- The KERN OZC has been developed specially to meet requirements for high contrast and depth of field. These devices are absolutely essential for the LCD/LED electronics industry
- The coaxial 2 W LED reflected illumination which is integrated into the objective guarantees selective depth of focus, so that even low-lying sections can be recorded (e.g. the bottom of a drilled hole)
- The parallel optics is a high-quality optical system and provides excellent images with the best contrast, colour and depth of field with fatigue-free working.
 Refocusing is also only necessary in very few cases when magnifying the zoom
- The large, adjustable magnification range from 18 to 65 times gives you continuous zoom when you are working

- As standard, the KERN OZC is trinocular and is therefore equipped for connecting a camera for documentation purposes and for quality reports
- The arm curved stand ensures precise adjustment and focusing of your sample.
 The stand base is particularly heavy and therefore offers a high level of stability and an extremely secure footing
- A large selection of eyepieces and a mechanical stage extension are available as accessories
- A protective dust cover, eye cups, as well as multi-lingual user instructions are included in the scope of delivery
- A C-mount adapter is required to connect a camera. You can select this adapter from the following model outfit list
- Please find detailed information in the following model outfit list

Scope of application

LCD/LED electronics, semiconductor technology

Applications/Samples

 Samples with focus on three-dimesnional impression (depth, thickness), zoom for variable magnification, e.g. LCD/LED electronics, circuit boards, ICs

Technical data

- Optical system: Parallel optics
- · Brightness adjustable
- Tube 45° inclined
- Magnification ratio: 3,6:1
- Light distribution 50:50
- Interpupillary distance 52 76 mm
- Diopter adjustment: Both-sided
- Overall dimensions W×D×H 305×180×405 mm
- Net weight approx. 6,6 kg.

O = Option

Pictograms

360° rotatable

Monocular Microscope

For the inspection with one eye

Binocular Microscope

For the inspection with both eyes

Trinocular Microscope

For the inspection with both eyes and the additional option for the connection of a camera

Abbe Condenser

With high numerical aperture for the concentration and the focusing of light

Halogen illumination

For pictures bright and rich in contrast

LED illumination

Cold, energy-saving and especially long-life illumination

Incident illumination

For non-transparent objects

Transmitting illumination

For transparent objects

Fluorescence illumination

For stereomicroscopes

FPS

Fluorescence illumination

for compound microscopes With 100W mercury lamp and filter

Fluorescence illumination for compound microscopes

With 3 W LED illumination and filter

Phase contrast unit

Darkfield condenser/unit

For a higher contrast due to indirect illumination

Polarising unit

To polarise the light

Infinity system

Infinity corrected optical system

Zoom magnification For stereomicroscopes

Auto-focus

For automatic control of the focus level

Parallel optical system

For stereomicroscopes, enables fatigue-proof working

Integrated scale

In the eyepiece

SD card

For data storage

USB 2.0 digital camera

For direct transmitting of the picture to a PC

USB 3.0 digital camera

For direct transmitting of the picture to a PC

WLAN data interface

For transmitting of the picture to a mobile display device

HDMI digital camera

For direct transmitting of the picture to a display

PC software

To transfer the measurements from the device to a PC

Automatic temperature compesation

For measurements between 10 °C and 30 °C

Protection against dust and water splashes

IPxx: The type of protection is shown in the pictogram cf. DIN EN 60529:2000-09, IEC 60529:1989+A1:1999+A2:2013

Battery operation

Ready for battery operation. The battery type is specified for each device.

Battery operation rechargeable

Prepared for a rechargeable battery operation

Plug-in power supply

230V/50Hz in standard version for EU. On request GB, AUS or USA version.

Integrated power supply unit

Integrated in microscope. 230V/50Hz standard EU. More standards e.g. GB, AUS or USA on request.

Package shipment

The time required to manufacture the product internally is shown in days in the pictogram.

Abbreviations

Adapter for the connection of a C-Mount

Frames per second

camera to a trinocular microscope

LWD Long Working Distance SWF Super Wide Field (Field number at least Ø 23 mm for 10× eyepiece)

N.A. Numerical Aperture

Working Distance W.D.

H(S)WF High (Super) Wide Field (Eyepiece with high eye point for wearers of glasses)

SLR camera

Single-Lens Reflex camera

WF Wide Field (Field number up to

Ø 22 mm for 10× eyepiece)
